ELECTROHAAT ®

Mfg of Electrical & Electronic Products

WHO WE ARE

The Shreeji has been a trusted presence in the electrical business since 2019, beginning with the distribution of products from many well-known brands. Our journey evolved as we ventured into production through strategic contract manufacturing partnerships. Over the years, we've amassed considerable experience in identifying and addressing challenges within the electrical industry. Our commitment to quality and innovation is reflected in our diverse range of high-quality products, designed to meet and exceed customer expectations. We pride ourselves on our ability to deliver reliable solutions that not only solve problems but also enhance the efficiency and safety of electrical systems for our clients.

WHY WE ARE

We don't produce our products directly; rather, we partner with contract manufacturers to guarantee that we provide the highest quality and durability. Furthermore, we have registered our trademark, "ELECTROHAAT".
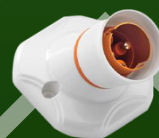

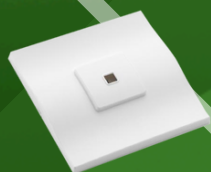

Our mission is to consistently deliver top-notch products designed to last, ensuring customer satisfaction and trust. We strive to innovate in our offerings and maintain sustainability in our practices to contribute positively to the environment.

Our vision is to be recognized as a leader in our industry, known for our commitment to quality and reliability, and to foster long-term relationships with our customers and partners.
